GENERAL BUSINESS

The Discussion and Assessment of Land Use on Nmbngee Community Cooperative.

Background: Recent issues between some members of the community have highlighted the need for greater clarity in the areas of land use and management of the property and our shared resources. Through a process of respectfully listening to everyone's opinions, hopes and dreams, we can hopefully negotiate and formulate a shared, collective vision for Nmbngee and our future direction together as members of a community where we all feel safe, valued and integral to the successful continuation of this 50 years old social experiment. In the event that some proposals can be formulated; these can be taken to the AGM for ratification.
